DYING BY THOUSANDS

Awful Result of General Weyler's Recent Order.

THE DEATH RATE IS APPALLING.

Over a Thousand Persons Die Every Day in Cuba as a Result of Famine—Spanish Troops Leaving Cuba—Breach Widening in Spain—Another Expedition Has Sailed For Cuba—Cuban War News.

NEW YORK, June 15.—The Herald's special from Havana says: More than 1,000 persons die every day in Cuba now as the result of the famine and disease, due to General Weyler's enforced reconcentration of pacificos. General Weyler is reaping the crop, and the result will horrify the world. This fertile land is weary beyond measure of Weyler and war. Next month there can not but be another jump in the death rate. In May it was more than twice as great as it was in March. Now come the rains, and with them an increase in yellow fever, typhus, which is already in the field, and all the enteric disorders to which reconcentrados are particularly liable.

Even were war stopped now there would be 50,000 or 75,000 deaths before a bettered condition of the stricken population could check the march of the destroyer. I say this without regard to Spanish or rebel. The proof that it is true is here. General Weyler's policy is resulting only in the wholesale removal of pacificos and women and children who can not escape, while the insurgents, the men against whom Spain sends him, are not being conquered.

The mayor and aldermen of Madruga have resigned. Rations of volunteers have been cut off, and guerrillas are no longer paid, but those on post at night search the houses and carry off what they please. Not the slightest effort is made to stop these outrages. If one complained he would probably not live to complain again.

There was a striking evidence of pacification in Havana province yesterday. A train carrying troops and the civil and military governors of Matanzas was blown up near San Miguel. Seven soldiers were reported killed.

The rainy season has set in in Pinar del Rio. The insurgents are active there and the troops are suffering greatly from fever. Two hundred and fifty suffering soldiers were brought to Havana yesterday. The alcalde of Santa Clara has refused to allow pacificos to go out after vegetables, saying it is an injustice to the tax paying merchants. Of course, this is simply closing the lines tighter around the starving ones, who have no money to patronize merchants.

NEEDED AT HOME.

Troops Taken From Cuba and Returned to Spain.

NEW YORK, June 15.—A dispatch to The Journal from Havana says: Spanish troops are returning to Spain at the rate of 2,000 per month. This week's mails carried back over 600 free of cost to the government, the expenses being borne jointly by the Marquis de Comillas, president of the trans-Atlantic line, and the Spanish Red Cross society here. Probably half of the men sailing were ill or wounded, and at least 50 looked as if they would never withstand the voyage. One man died while being taken from the hospital to the wharf to embark.

Reports of increasing misery among the Cubans in Weyler's fortified towns come from all over the island.

Mayor Pizarra and Chief of Police Armenteros of San Nicolas, which Gomez and Maceo took with their forces in 1896, on their way west, were tried by court-martial here yesterday and sentenced to life imprisonment. Both are Spaniards. They were embarked with about 60 political prisoners for Ceuta, upon the African coast.

BREACH WIDENING IN SPAIN.

Peace Can Not Continue Long Under Such Circumstances.

NEW YORK, June 15.—A dispatch to The Herald from Madrid says: The reports of an intended annexation of Hawaii by the United States causes anxiety, as foreshadowing President McKinley's Cuban policy.

Senor Silveira, the leader of the Dis-sidents, or Radicals, in a speech last night condemned the Duke of Tetuan's assault on Senor Canovas. He proceeded to say that Premier Canovas' projected Cuban reforms signify that Spain resigns, in a way, to the United States her title to the government of the Antilles.

Senor Silveira advocates a vigorous military policy in Cuba and denounces the weakness of the present ministry. He concluded by the declaration that the breach between the Spanish people and the present government widens daily and that eventual peace can not continue long under such circumstances.

WANT WARSHIPS SENT TO CUBA.

Urging Resolutions Adopted by the Arkansas Legislature.

LITTLE ROCK, June 15.—There was an exciting debate in the Arkansas senate on the Cuban situation yesterday. Resolutions were adopted and ordered sent to President McKinley, urging that the Cubans be at once granted belligerent rights, and that warships be sent to Havana to protect American citizens.

Senator Williams, who introduced the resolution, said he wanted to send warships to Havana at once. If one was not enough, send 10, if necessary, blow Moro Castle off the face of the

earth. He spoke of Ona Melton, an Arkansas boy in prison there and bitterly denounced the Spaniards.

Cuban Dispatches Seized.

KINGSTON, Jamaica, June 15.—Dr. Viele, chief surgeon of the Cuban insurgent army under General Garcia, arrived at Rio Buena, this island, on Saturday, accompanied by 11 Cubans. They had escaped from the province of Santiago de Cuba in an open boat, and brought with them dispatches for the Cuban junta at New York. These dispatches were seized by the Jamaican officials.

Another Expedition Is Off.

KEY WEST, Fla., June 15.—The Dauntless has left on another expedition. After taking on 33 Cubans she attempted to go through the northwest passage about 10 o'clock Sunday night and ran ashore. Assistance was sent for and the tugs Clyde and Childs pulled her off. About half past 4 o'clock yesterday morning the Dauntless changed her course in returning to the harbor, and passing the Marblehead, put to sea. The Marblehead started in pursuit. The schooner Adams took 40 tons of merchandise from the Biscayne yesterday and went to sea to meet the Dauntless.

Spanish Minister Says It's False.

WASHINGTON, June 15.—The Spanish minister here received an official communication stating that the report coming from Havana via Key West that the insurgent leaders Rius Rivera and Bacallao are in danger of being shot is false, for not a single insurgent leader is under the death sentence.

TRAIN DERAILED.

Engineer Instantly Killed and Three Others of the Train Crew Injured.

RICHMOND, Ind., June 15.—Train No. 2, southbound express on the Grand Rapids and Indiana railway, was derailed at 3 p. m. yesterday at Stone station, near Ridgeville, 30 miles north of here. The rails are said to have spread, ditching the engine, tender, mail and baggage cars. The engine was totally demolished, instantly killing engineer David Kramer of Fort Wayne, aged 50 years. He did not leave his seat and was found under the engine.

Fireman Grabel of Fort Wayne was seriously injured. He fell under the tender. Baggage-master Martin Minch of Fort Wayne was also injured. S. W. Munday, the express messenger, of Grand Rapids, was slightly injured. The smoker and other coaches were not damaged. No passengers were hurt. Heat is supposed to have caused the spreading of the rails.

COAL MINE ON FIRE.

All the Miners Escaped Shortly After the Fire Broke Out.

BIRMINGHAM, Ala., June 15.—The Henry Ellen coal mines, 15 miles east of here, owned and operated by the Tennessee Coal, Iron and Railroad company, are on fire. About noon yesterday fire was found in the east entry on slope No. 22.

Superintendent Ormsby was immediately notified, and the first thing he did was set about getting miners at work in various parts of the mines to the outside. At 1 o'clock every miner was accounted for.

The seam of coal is among the finest in the district and should the fire gain much headway great damage will result.

Representatives of the company have gone to Henry Ellen, and the flames will be fought until subdued.

Wealthy Land Owner Dead.

LAFORTE, Ind., June 15.—Patrick Huneoon, one of the wealthiest land owners in northern Indiana, is dead, aged 70. He was widely known for his eccentricities and lived with his brother, both being bachelors, under the same roof 30 years without speaking, dying with the silence unbroken. He was one of the founders of the town of La Crosse, in this county. His fortune is estimated at about \$1,000,000.

Killed by Lightning.

FORT WAYNE, Ind., June 15.—James Weaver of Shelton, with two friends, while fishing in the St. Mary's river, took shelter from a storm under a tree. Lightning struck the tree, instantly killing Weaver and stunning his two companions. Nearly every bone in Weaver's body was broken, and his body was scorched and blackened.

Killed by a Electric Car.

SOUTH BEND, Ind., June 15.—"Blackie" Widely, a notorious robber tramp, operating for years between Toledo and Chicago on the Lake Shore railroad, while intent upon robbing some boy bathers of their clothing yesterday, was struck by an electric car and thrown 40 feet dying soon after.

Died at Midnight.

DETROIT, June 15.—William H. Hutton, surgeon in the United States marine hospital service, and formerly in charge of the marine hospital in this city, died at his residence here at midnight. Dr. Hutton was born in Ohio 50 years ago, and served during the war with the Illinois volunteers.

Overcome by the Heat.

JEFFERSONVILLE, Ind., June 15.—Captain A. G. Howard, ex-warden of the prison south, was overcome by heat yesterday and was in a dangerous condition for a while.

Hot Weather in India.

CALCUTTA, June 15.—The heat prevailing is the highest on record, 126 degrees in the shade having been registered at Jacobabad, on the frontier of Belochistan.

FIRE ON ELLIS ISLAND

Government Immigrant Station Completely Destroyed.

PROBABLY NO LIVES WERE LOST.

Two Hundred Immigrants Were Safely Transferred From the Island to the City—The Buildings Were Simply Wooden Sheds Made of the Most Inflammable Material—Valuable Records Destroyed.

NEW YORK, June 15.—The United States government immigrant station on Ellis island, in New York harbor, was destroyed by fire this morning, but with probably no loss of life. The fire was first seen at 12:38 a. m. by the lookout from the harbor police station. He first noticed a flag about as large as a man's hand coming out of the window on the second floor toward the eastern end.

The fire spread rapidly. At 1:05 a. m. the eaves along the entire roof began to fall, setting fire to the wooden piers and docks on either side.

At 1:12 a. m. the whole island was a mass of flames illuminating the entire inner harbor and the lower part of New York city.

As soon as possible, two sections of police, 20 men and the police patrol lances were sent to the island.

An alarm was sent to the lower precinct police stations of the city and 25 men were ordered to the scene. The fire boat New York was soon under headway, with firemen policemen and others.

The fire boat Zephyr Mills was sent to the island as quickly as she could be made ready.

Later many persons went over in tugs and row boats.

The end of the building in which the fire started was used for sleeping, cooking and eating by the immigrants. The detention pen, in which there were always a considerable number of immigrants being held for investigation, was soon consumed.

Beside the buildings mentioned there was a hospital, the offices of the commissioners, a laundry, a disinfecting department and great cisterns in which are stored large quantities of rain water gathered from the roofs of the buildings.

The physicians and minor officials live in detachment small buildings.

The 200 immigrants were safely transferred from the island to the office at battery, leaving no one but the firemen and a few attendants.

The ferryboat John G. Carlisle, which plies between the battery and Ellis island, brought the sick from the hospital. There were 75 men and 46 women and children on the boat. Twenty of the women were sick, one of them suffering from typhoid fever and said to be in a serious condition. With the party also were the doctors and nurses.

Before the ferryboat Carlisle arrived ambulances had been summoned from Governor and Hudson Street hospitals so that the sick brought to the city could be cared for.

Dr. White said that so far as he knew no one had been burned or injured. He said, however, that there were many of the immigrants who refused to leave the island. All about there were ferryboats, tugs, and small boats willing to bring the people to the city, but the immigrants in their excitement feared to venture on the water.

The buildings on Ellis island were simply wooden sheds made of the most inflammable material. The main building was 404 by 154 feet and three stories high. It was constructed entirely of pine. The first floor was devoted to the baggage room, the immigrants' pens and the offices of the expressmen.

The second floor was occupied by emigrants. It was a vast opening space divided into pens by picket fences. The third floor was a gallery from which the immigrants below could be inspected without coming into contact with the inspectors.

The cost of the plant is said to have been \$780,000. All the records were lost.

TO AID THE MINERS.

Deplorable Condition of Affairs Existing Among the Pennsylvania Miners.

HARRISBURG, Pa., June 15.—The joint committee appointed to investigate the condition of the miners in the anthracite coal regions made its report to the senate last night and the report was adopted.

"The testimony taken," says the report, "shows conclusively a deplorable condition of affairs for a period covering about two years. The miners have earned an average of about \$1 per week, upon which in many instances they are compelled to support large families."

The committee recommends the enactment of a law abolishing company stores; the prohibiting of discounting or negotiating money orders belonging to the miners; the enactment of a compulsory semi-monthly pay law; and the passage of a resolution requesting Pennsylvania representatives in congress to vote for and urge the passage of a law restricting foreign immigration.

MUNCIE, Ind., June 15.—While handling a bunch of bananas Harry Baker, a clerk at the Sterling Cash grocery, was stung twice on the left hand by a tarantula. The hand did not swell much, but turned black and the pain became intense. Dr. L. L. Ball attended Baker, and administered whiskey in large doses, bringing his patient around all right. The doctor says that whiskey, and nothing else, saved Baker's life.

ANNEXATION OF HAWAII.

The Treaty Already Drawn Up Ready For the Signatures.

WASHINGTON, June 15.—The officials at the state department steadfastly refuse to make any statement as to the negotiation of a treaty providing for the annexation of Hawaii, and at the Hawaiian legation the same silence is observed. However, it is known that the treaty, though not yet signed, is drawn up ready for signature, and as the president is fully aware of its scope, there is no doubt that he will authorize its signature.

In this case it is expected that the document will be sent to the senate for its action very soon, even within a week, it is said in some well-informed quarters. If this be the case it may be taken for granted that the president has taken steps to assure himself of a favorable reception for the treaty in the senate and to guard against such a mishap as befell the arbitration treaty last session.

The present condition in Hawaii, it is said, has had much to do with favorable consideration of the treaty of annexation. The present government of Hawaii and the people who support it are very much concerned about the Japanese situation. Private information received by Hawaiians in this city is to the effect that the Japanese at any time may take some action looking to acquisition of the island. The advice officially received are of much the same tenor.

The sentiment in the senate seems to be that Japan in no way should control the islands or get a foothold there. This argument has been used to prevent even notice of abrogation of the present treaty in the tariff bill. It is said that such notice might be followed by Japanese occupation and the islands could not be gained by the United States without a struggle.

In this connection it is learned that the conversations among the most prominent Japanese residents of Hawaii, which have been reported to the representatives of the islands in Washington, have been of a threatening character, and that the American residents have more concern than has been shown in the published accounts.

QUICK EXECUTION.

One Minute and a Half and Howard A. Scott Was Dead.

SING SING, June 15.—Howard A. Scott was electrocuted here yesterday at 11:11 a. m. He was declared dead at 11:12:30.

The crime for which Scott was executed was committed in New York on Oct. 28, 1896. Scott was separated from his wife. The latter earned a livelihood by working in a laundry. Scott's jealousy had caused the separation. About noon on the day of the murder Mrs. Scott appeared at the Jefferson Market court and said she either wanted to secure a divorce from her husband or a separation, as he had treated her cruelly and had failed to provide for her. A summons was given her. Mrs. Scott then went to her home. Shortly afterward her sister, Mrs. Anna White, called on her. She found Mrs. Scott lying on the floor with a bullet hole in her left breast.

Scott was at once suspected. An effort was made to get a statement from Mrs. Scott, but she was too far gone to talk and died soon after. Scott, at a funeral of a relative a few weeks before, had remarked, "that there will be another funeral soon." This and other evidence was brought against him, and at his trial he was convicted.

Man and Horses Perish.

MISSOULA, Mont., June 15.—A fire last night destroyed the breeding stables of Higgins Brothers, the well known horsemen of this city. With the stables five horses were burned, including Trix, one of the best known pacers of the west. Fred Stronster, a jockey, was burned to death in attempting to save the stock. The fire was incendiary and was the 10th that has occurred in this city within a few weeks. Citizens are talking of organizing a vigilance committee.

Candidates For a Lynching.

NEW YORK, June 15.—The police of Brooklyn are still without any clew as to the identity of the would-be train wreckers who endangered the lives of 1,000 persons Sunday night by placing a huge iron rail on the tracks of the Sea Beach line. It was discovered later that an attempt had also been made to wreck a train on the Culver line, which runs parallel with the Sea Beach route, by turning the switches.

Daring Broad Daylight Robbery.

CAPE MAY, N. J., June 15.—A daring robbery took place in broad daylight yesterday at the South Dennis postoffice. Mrs. Carl, the postmistress, had just stepped out of the door, having left on the desk \$146 in registered money which was to have been mailed in the morning. She was shot by the robber as he left the office, but not hurt. The man escaped with the money.

Yellow Fever on Shipboard.

SAN FRANCISCO, June 15.—The City of Pekin arrived yesterday from Panama, flying the yellow flag, and was immediately ordered into quarantine. When one day out from Panama one of the passengers, Mrs. Mitchell, died of yellow fever, and a few days later Captain Metonen also died. About 20 passengers came into port, none having symptoms of the disease.

AMITY, Ind., June 15.—A large barn on the farm of Alexander Dawson, near here, was struck by lightning, burning to the ground. Twelve hundred bushels of corn and other property was consumed. Loss \$1,000, with no insurance.

KILLED BY LIGHTNING.

BELLAIRE, O., June 15.—During the terrific thunderstorm which passed over this section Sunday afternoon Misses Alpha Taylor, Minnie McGuire and Emma White were instantly killed by lightning. The young women were each about 19 years of age, and were the daughters of William Taylor, Simon White and Rev. Thomas McGuire, the latter pastor of the M. E. church.

They were walking along the highway about 100 yards from the M. E. church at Jacobsburg at the time.

The three girls wore steel corsets. A fourth girl who did not wear a corset was struck by the same bolt of lightning and seriously injured, but it is thought will recover.

DISCHARGED MAN SUICIDES.

He Goes to His Home and Puts a Bullet in His Brain.

IRONTON, O., June 15.—James F. Alexander, a popular politician and traveling salesman for the Foster Stove company of this city, shot and instantly killed himself at 9 o'clock yesterday morning.

The suicide had gone to the stove foundry and was informed that he had been discharged. He returned to his residence and in the presence of a wife and two little children placed a revolver to the right temple and fired. The ball lodged in the brain and death was instantaneous. Deceased was deputy postmaster of this city during Harrison's term.

Unknown Man Killed by Cars.

PIQUA, O., June 15.—The body of a tramp, apparently 65 years old, was found four miles west of here on the Panhandle railroad. All efforts to identify the man have proved futile. It is supposed he was stealing a ride on a freight and fell from the train. The coroner and the railroad company are making an investigation.

AKRON, O., June 15.—Two strangers purchased a jug of cider from Henry Harshbarger, a wealthy Mogadore farmer, yesterday, then told him they were government detectives, but if he would give them \$25 they would prosecute. An Explosion of Giant Powder Killed One Woman and Injured Another.

AUBURN, Cal., June 15.—The business portion of Georgetown, a mining town in Eldorado county was burned to the ground yesterday. The fire originated in the middle of the main block and spread both ways, burning everything from the American hotel to the water company's office.

Just after the fire had run its course there was a terrific explosion of giant powder in Southerberger's general merchandise store. Mrs. William Nowell was instantly killed and Mrs. Molain seriously injured. Many others received slight injuries.

As a result of the shock every window in the residence portion was broken and all the buildings which had not been wholly destroyed by the fire were leveled to the ground. The town is a barren waste.

Fifteen business houses were destroyed and the loss entailed will amount to \$175,000.

LEUTENANT GOVERNOR WORTHINGTON started the pardon mill to running as soon as Governor Bradley left him in charge of affairs Saturday.

The Cynthia Democrat says that Gov. Bradley's decision that "the fact that a man will vote the Republican ticket does not of itself entitle him to have his civil rights restored" is a most remarkable one. Well, it is the more remarkable because it was openly charged a year or so ago that he restored quite a number of ex-convicts to citizenship. Perhaps, the Governor is getting good, however.

Mr. JOHNSON, a very genial gentleman, of Lexington, Ky., was put at the head of the Bureau of Engraving and Printing by Mr. Carlisle, not because he knew anything more about the business of that office than any other American of good intelligence and fair education, but because he was a Democrat, and he displaced Capt. W. M. Meredith, who was removed, not because he did not understand it and attend to his business, but because he was a Republican. Now it is announced that Mr. Johnson is to stay, because an investigation has shown that the business of the Bureau is well conducted, just as it was before he went in. It is such things as this which make a great many people impatient with the civil service system, which is an excellent system.—Louisville Commercial.

Anything that is calculated to keep the Republicans out of office makes them very "impatient." The Republicans ought to quit declaring for civil service in their platforms, if they don't wish to see the law carried out.

DURING the first year of Cleveland's first administration some Republican discovered that in awarding a contract for blankets for the army the war department gave the contract to an English firm. "The English blankets were so immeasurably better than those offered by home firms the department could not do otherwise than award the contract as it did," says the Georgetown News-Democrat. "The howl, however, that went up from Republican papers and stumpers would put the combined efforts of the wolves of Russia to blush. But let us give a sequel to the story. The other day the Commissioner of Indian Affairs—under McKinley, mark you—advertised for 1,013,832 pounds of sugar and the contract was awarded, and not a pound of the sugar is to be furnished by American refineries. The American bids, six in number, were identical—\$4.41 per 100 pounds—while the foreign bid was \$4.16. The commissioner did the proper thing—just as the war department under Cleveland did the proper thing. But wait and see how many howling Republicans come to the front to denounce the McKinley administration for favoring foreigners as against Americans!"

A PARTY was made yesterday by a C. and O. train, Col. Bennett H. Young being the occupant of a special which made the run from Louisville to Maysville in fifty-eight minutes, a distance of sixty-three miles. He delivered the address at the High School commencement.—Louisville Post.

The Post's reporter ought to devote some of his time to the geography of Kentucky. The run was from Covington to Maysville.

The old man who looks out at the world with clear and healthy eyes cannot help feeling great gratification at the thought that his children have inherited from him no weakness or tendency to disease. The healthy old man is the man who has throughout his life kept his digestion good and his blood pure. Not one in a thousand does do it. Germs go through the healthy body with out effect. Let them once find lodgment or let them find a weak spot, they will develop by the millions and the blood will be full of them. Instead of giving strength to the tissues, it will force upon them innumerable matter, and the man will lose flesh and the more susceptible he is to disease. Dr. Pierce's Golden Medical Discovery is the only medicine that absolutely and infallibly cures all blood diseases, and almost all diseases are blood diseases. It isn't medicine for some one particular so-called disease. It is a medicine for the whole body. It forces out all germs of diseases, and replaces impurities with rich, red blood.

INDICATIONS.—Partly cloudy weather; light, variable winds.

Prof. Pinkley is to be congratulated upon his success, emphasized by the enthusiasm of the audience, which must have paid him in a measure for his earnest labors of the year."

BISHOP MAES.

He May be Made Archbishop of New Orleans to Succeed the Late Archbishop Janssen.

The Catholic clergy of Covington is again discussing the possibilities of Right Rev. Bishop Maes, of this diocese, being made Archbishop of the diocese of New Orleans.

On last Thursday Archbishop Janssen, of that diocese, died on shipboard, leaving that important office vacant. Rev. Father Janssen was made Archbishop in 1888, and at that time the name of Bishop Maes was one of the three recommended to the Pope for the place.

The seniority of Father Janssen caused his appointment. Since his demise, the question of a successor has become a topic of discussion, and many prominent Catholics believe that Bishop Maes will receive favorable consideration. The distinguished clergyman is now in Rome.

It is easy to find the word wanted. It is easy to ascertain the pronunciation. It is easy to trace the growth of a word. It is easy to learn what a word means.

The Raleigh News & Observer says: "Our individual preference was formerly for another dictionary, but a better acquaintance with the later edition of Webster (the International) has led us to regard it as the most valuable, and to consider it as the standard as far as any one dictionary should be so accepted."

WANT INSURGENTS RECOGNIZED.

Petition Presented in the House Containing Six Million Names.

WASHINGTON, June 15.—The house yesterday adjourned until Thursday after a session that lasted 45 minutes. The only attempt to transact business was a request by Mr. Lacy (Rep., Ia.) for unanimous consent for a bill for the relief of residents of Greer county, O. T. Mr. Henry (Dem., Tex.) promptly objected, and then after the usual Democratic protest against the Republican policy of not appointing committees, the house by 88 to 78, with 15 present and not voting, decided to adjourn.

Before the session began the hub of a wheel, wound round with a monster petition said to contain 6,000,000 signatures, appealing to congress to recognize the Cuban insurgents as belligerents, was wheeled into space in front of the speaker's rostrum. It had been in circulation throughout the United States for about six months and was presented to congress by Representative Sulzer of New York.

In the Senate.

WASHINGTON, June 15.—The senate debate on the sugar schedule of the tariff bill proceeded yesterday with only one diverting incident to relieve the monotony in which the discussion has elapsed. This was a sharp exchange between Mr. Hoar of Massachusetts and Mr. Tillman of South Carolina, representing the two extremes of senatorial procedure. Only one rollcall occurred during the day, on Mr. Lindsay's amendment to place all sugars on the same basis. This was rejected, 26 to 20. Mr. McEnery (Dem., La.) voted with the Republicans in the negative and Senators Pettigrew and Mantle with the Democrats in the affirmative.

METED OUT A HORRIBLE DEATH.

Enemies Wreaked Their Vengeance on a Mexican Smuggler.

SAN ANTONIO, Tex., June 15.—A letter has been received here, giving an account of the horrible death meted out to Alfredo Carrizales, a Mexican smuggler, by his enemies.

The murder took place in Zavalla county, Tex. Carrizales was riding along the road near Carrizo, when he was fired on from ambush. He was shot through the body, and the man who did the shooting tied the wounded man to the tail of his horse and dragged him through the cacti and over prickly pears. The horse was then stopped and the wounded Mexican was placed in a sitting posture and five more shots were fired into his body. He was left for dead, but was alive, and coyotes gnawed out what little life remained. Juan Garrea has been arrested, charged with the crime.

ONLY A JOKE.

The Attempt on President Faure's Life Not Regarded as Serious.

PARIS, June 15.—The newspapers unite in saying that the alleged attempt to assassinate President Faure Sunday was either a practical joke or the act of a mad man, and that the so-called outrage was arranged so as not to hurt anybody.

Yesterday afternoon the police found a second tube filled with powder and scrap iron near the scene of Sunday's explosion. They are of the opinion that the miscreant is probably the man who placed explosive tubes of a similar character in the Place de La Concorde during the recent visit of Emperor Nicholas.

Barney Barnato Jumped Overboard.

LONDON, June 15.—A special dispatch from Funchal, island of Madeira, off the west coast of Morocco, says that on the arrival there yesterday of the British steamship Scot, which left Table Bay, Cape Town, on June 2, for Southampton, it was announced that Barney Barnato, the South Africa diamond king, who was among the passengers, had committed suicide by leaping overboard. His body was recovered.

Roof Gives Way.

BRAZIL, Ind., June 15.—The frame residence of Frank Barrett burned at Cory yesterday. Mr. Barrett, discovering his house on fire, climbed upon the roof to throw water upon the flames, when the roof gave way and he fell in the building. When rescued he was badly burned and exhausted.

Strike Against a Rednote.

NEW HAVEN, June 15.—On the announcement yesterday morning of a 10 per cent general reduction of wages at the Worcester cycle shops in Middletown, Conn., 100 men went on a strike. There was a reduction of wages some time ago at the shops, which give employment now to about 400 hands, and to about 700 when running on full time.

Iron Works Closed.

READING, Pa., June 15.—The management of the Reading iron works have closed its tube mill indefinitely. By this over 1,000 men are thrown out of employment. The cause of the shutting down is that the men in the departments upon which the tube mill is dependent for iron, are on a strike, and the supply has run out.

Three Children Burned to Death.

HAMBURG, Ark., June 15.—The house of a negro named Dunn, 15 miles from here, took fire last night at 3:30 o'clock. The dwelling was occupied by the negro, his wife and three children. The three children were cremated.

Farmer Fatally Hurt.

BRAZIL, Ind., June 15.—Sinclare Donahue, a farmer, residing south of this city, was thrown from a carriage last evening. His skull was crushed and he was internally injured. He will die.

Tile Factory in Ashes.

PORTLAND, Ind., June 15.—Cole Maitlen's large tile factory, in the south part of the county, burned last night. The origin of the fire is unknown. The loss is \$3,000 with no insurance.

Resumed Operations.

CHESTERFIELD, Ind., June 15.—The Chesterfield brick plant resumed operations, with 50 employees yesterday, after practically a shutdown for three years.

Young Woman Sunstruck.

SHELBYVILLE, Ind., June 15.—Grace Spellman, a popular young lady, yesterday suffered a sunstroke and will die.
